A TIME to Be Alone

A TIME to talk to a friend , to take a test , to concentrate and practice , or to balance books .

And to Generate Spirit

A TIME to build spirit through parades and posters, for giving thanks for a serious injury-free game, and to celebrate a last-second victory.

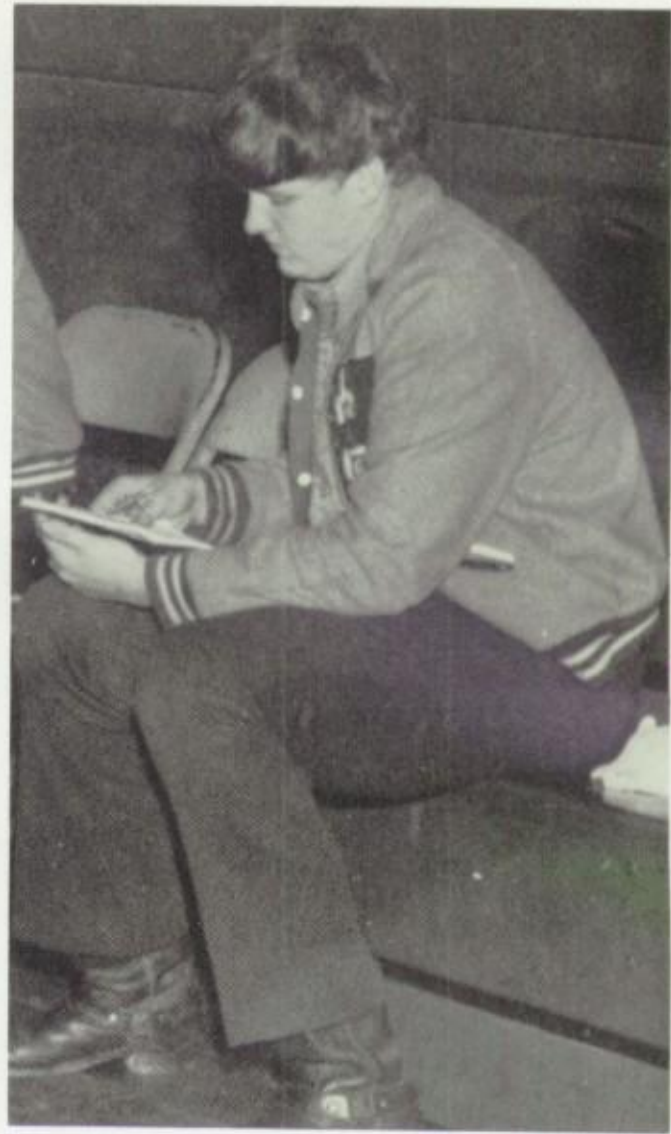

A TIME to Relax

A TIME to laugh, to enjoy doing your favorite thing;
be it eating or whatever.

A TIME for Silence and Thoughts

A TIME for contemplating your
future or the future of others.

A TIME for Work

A TIME to run and sweat, to feel dirt under your fingernails, and to do that dreaded homework.

A TIME for Play

A TIME to give a party, make a new friend, lose an old friend,
and make a fool out of yourself.

A TIME for Making Plans

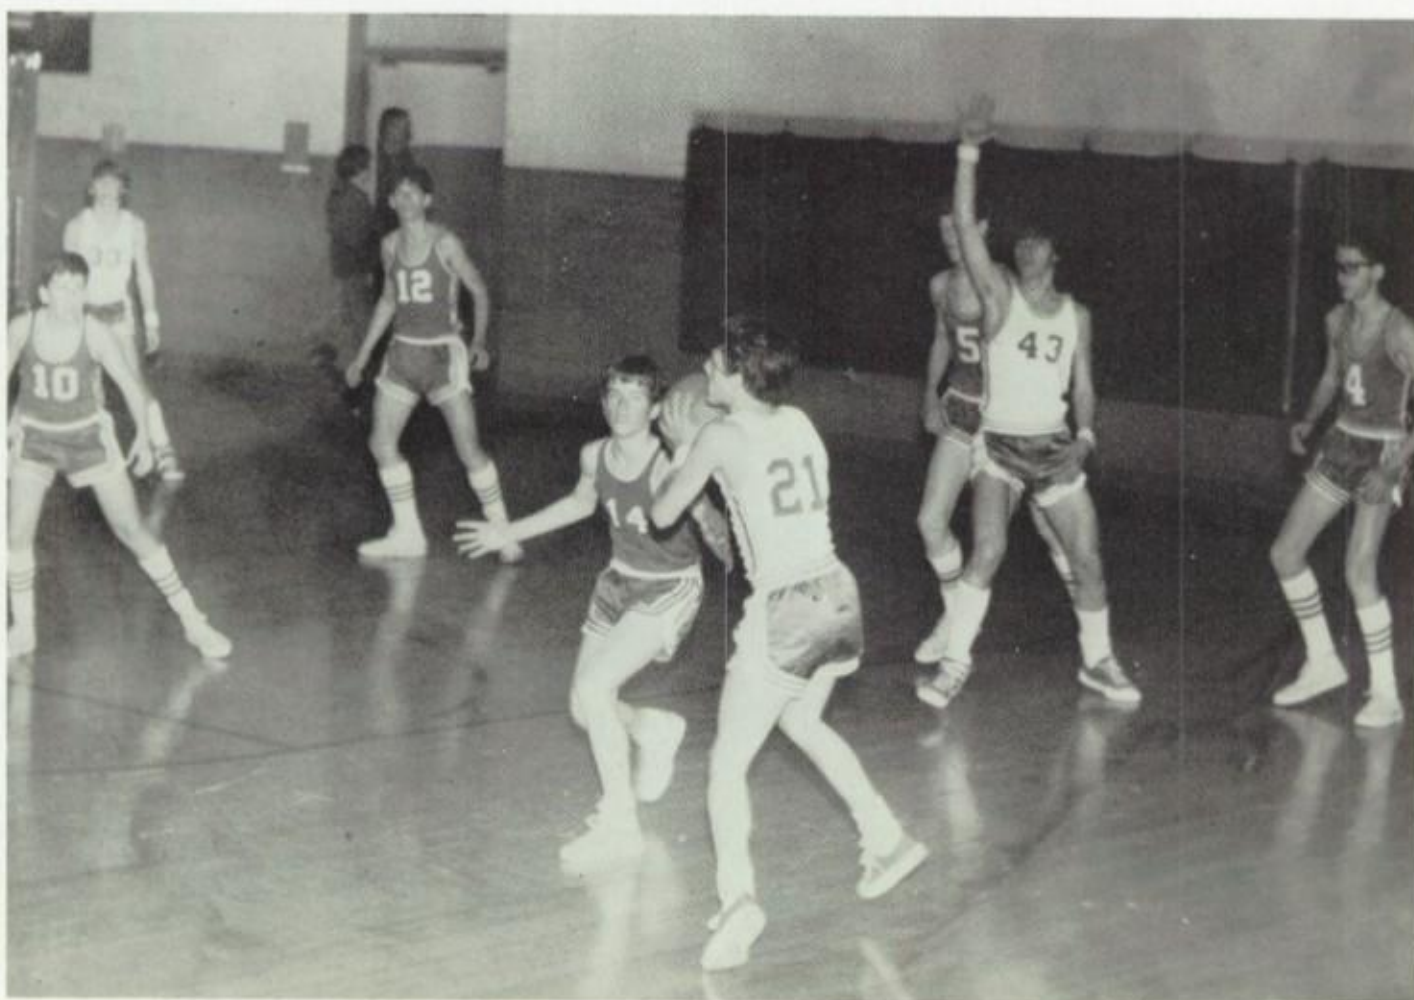

A TIME for planning a banquet, a parade,
or that last-second shot that will win the
game.

And Executing Them

A TIME to try out that new paddle , to
decorate for that special banquet , or to
work for that winning shot .

***Robert Hicks, President Eddie Gardner, Secretary

As one looks back over years of service of those who have directed Hoxie High School, one is impressed with the wise and farseeing plans these men have promoted. Hoxie students and citizens are grateful for their sacrificial efforts.

The building program that has taken place and the one that is currently taking place are only a little part of many TIME-consuming responsibilities these men have discharged. For their sincere devotion to the cause of good community living, and their readiness to give of themselves so that boys and girls will have the best opportunities for growing into manhood and womanhood, we want to express our sincere gratitude.

Social Studies

"Men who do not know the past are condemned to repeat it." The truth of this statement has been proven, as well as quoted, by influential men over and over. That is why history courses are included in the curriculum of HHS. American history, world history, American government and Arkansas history have been offered in the previous years. This year, however, two new courses, sociology and political science, were added to the list.

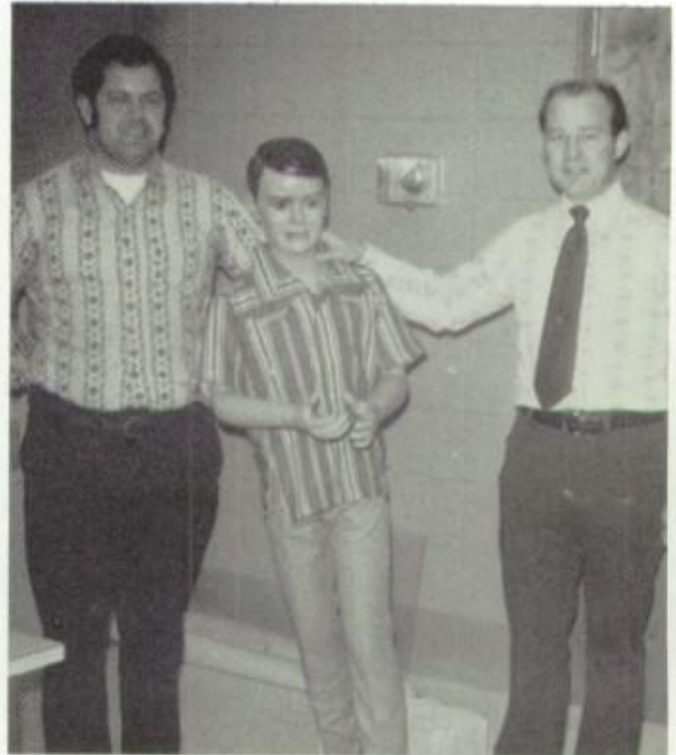

When Mr. Green's middle school science classes studied about pollution, they held a poster contest in which Linda Richardson and Terri Watson won 1st place. John David Smith won 2nd place and Karen Pratt won 3rd place.

Science

To help the students cope with an ever changing world, HHS offers them a widely divergent science curriculum of general science, biology, and chemistry.

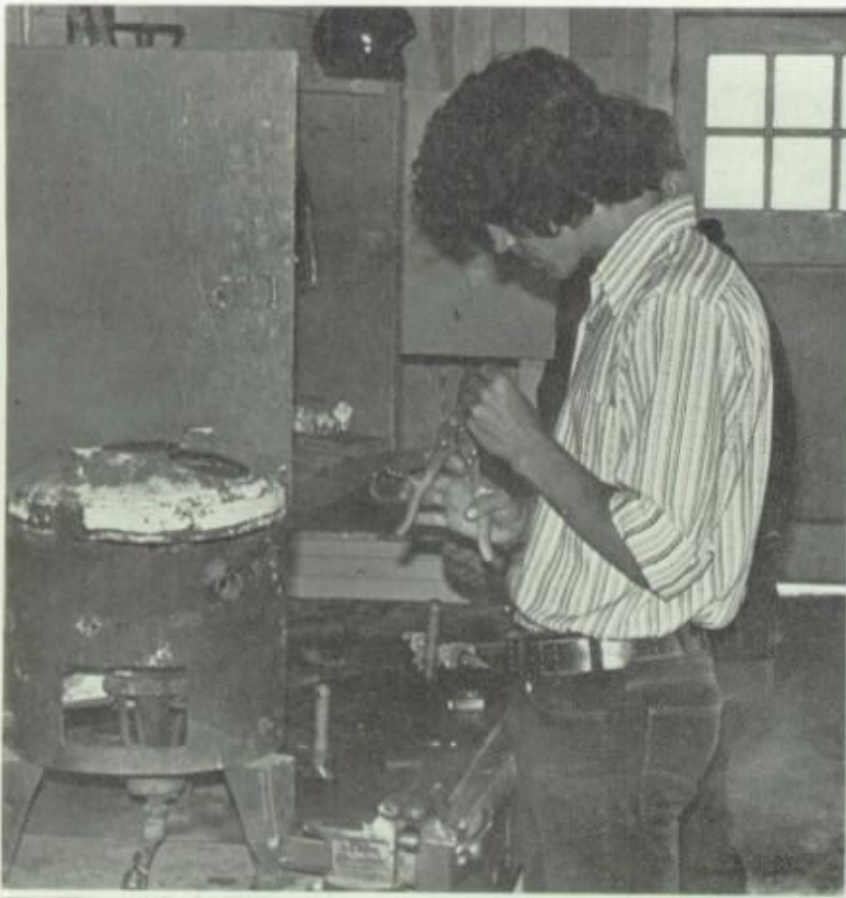

Gary Sears, a registered pharmacist, visited the 8th grade classes to help them to better understand drugs.

Smokin' Sam made a visit to HHS. He was used to show the amount of nicotine taken into the body by cigarette smoking.

Agriculture

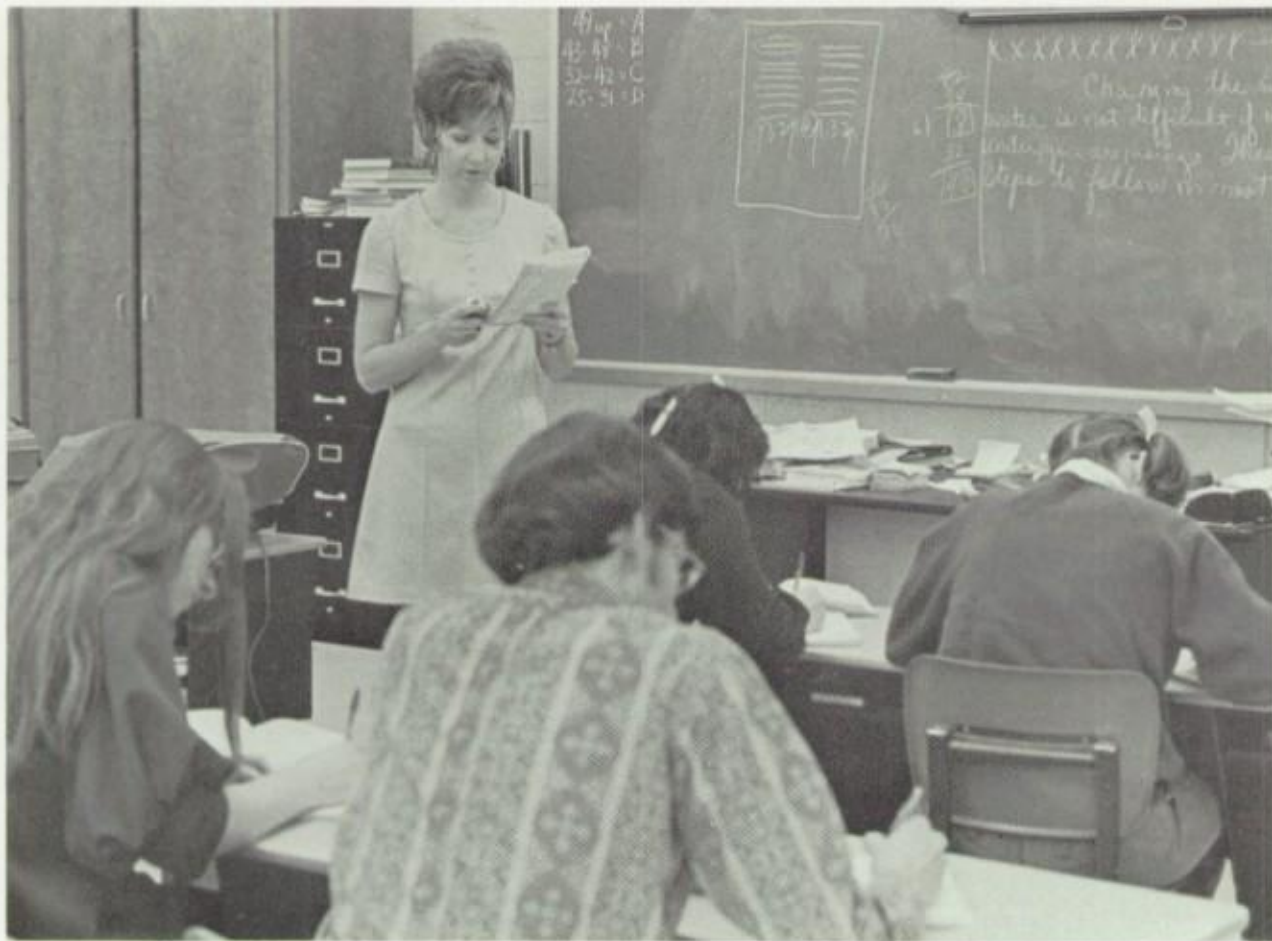

The Agriculture department strives to teach boys how to use their hands and minds in shop work, mechanics, farming techniques and competitive judging through the classes of Agri I and II, plant science, and auto mechanics.

Home Economics

Preparing girls for their future as homemakers is one of the many goals of the Home Economics I, II, and III classes and family living. During the classes they are taught the techniques of sewing, cooking, etiquette, and the management of a home.

Business Education

As our modern society progresses, there is a greater need for the knowledge of the fundamentals of business education. HHS tries to fulfill this need by offering such courses as typing, shorthand, clerical office practice, and bookkeeping. These courses not only prepare one for a future job in the business world, but also develop one's mind.

French

In today's growing world of vast communication, the knowledge of a foreign language can prove to be very helpful in the success of an individual in his society. Through middle school French and senior high French, HHS contributes its part in preparing its students for their future in the world of languages. To make the language a little more interesting, the middle school presented a play and the high school uses a lab.

English

Whatever occupation or profession in which one chooses to endeavor, his skills in the English language must be developed well. Through the middle school and high school courses, English is taught to HHS students.

Music

The appreciation of music is a part of one's life that should be developed in his formative years. In order to assist in this cultural advance, HHS offers musical training through student's memberships in special ensembles, choir, mixed chorus, and glee club.

Physical Education

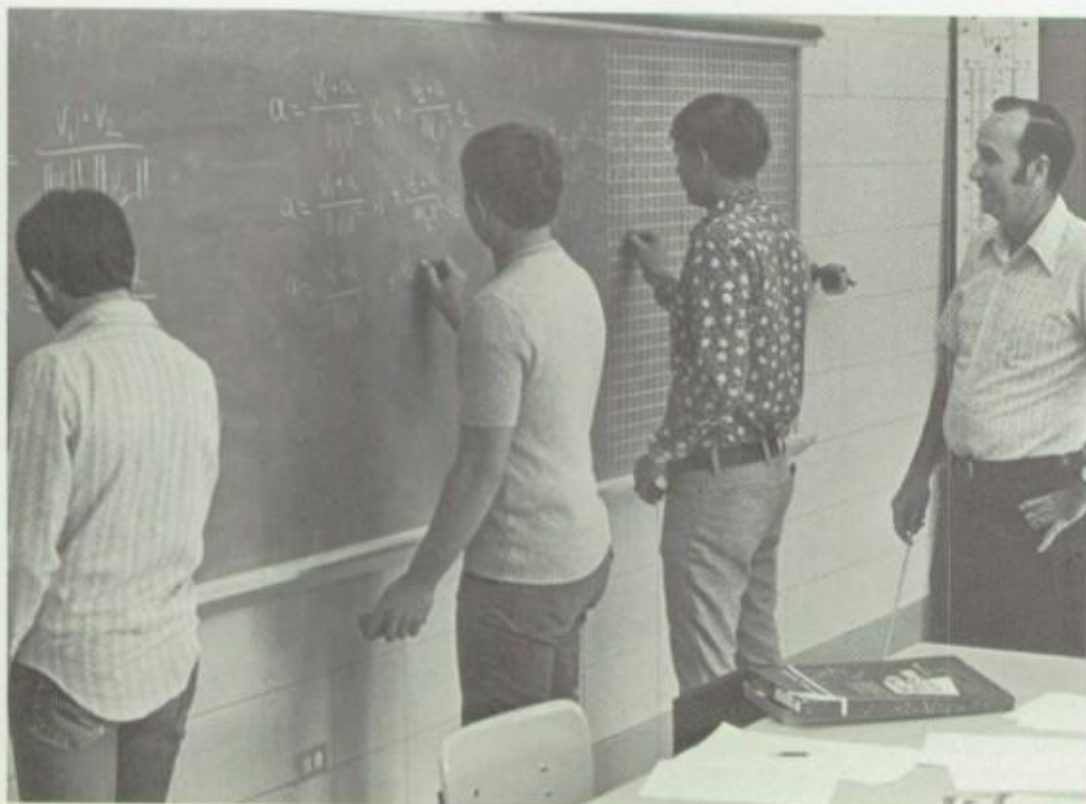

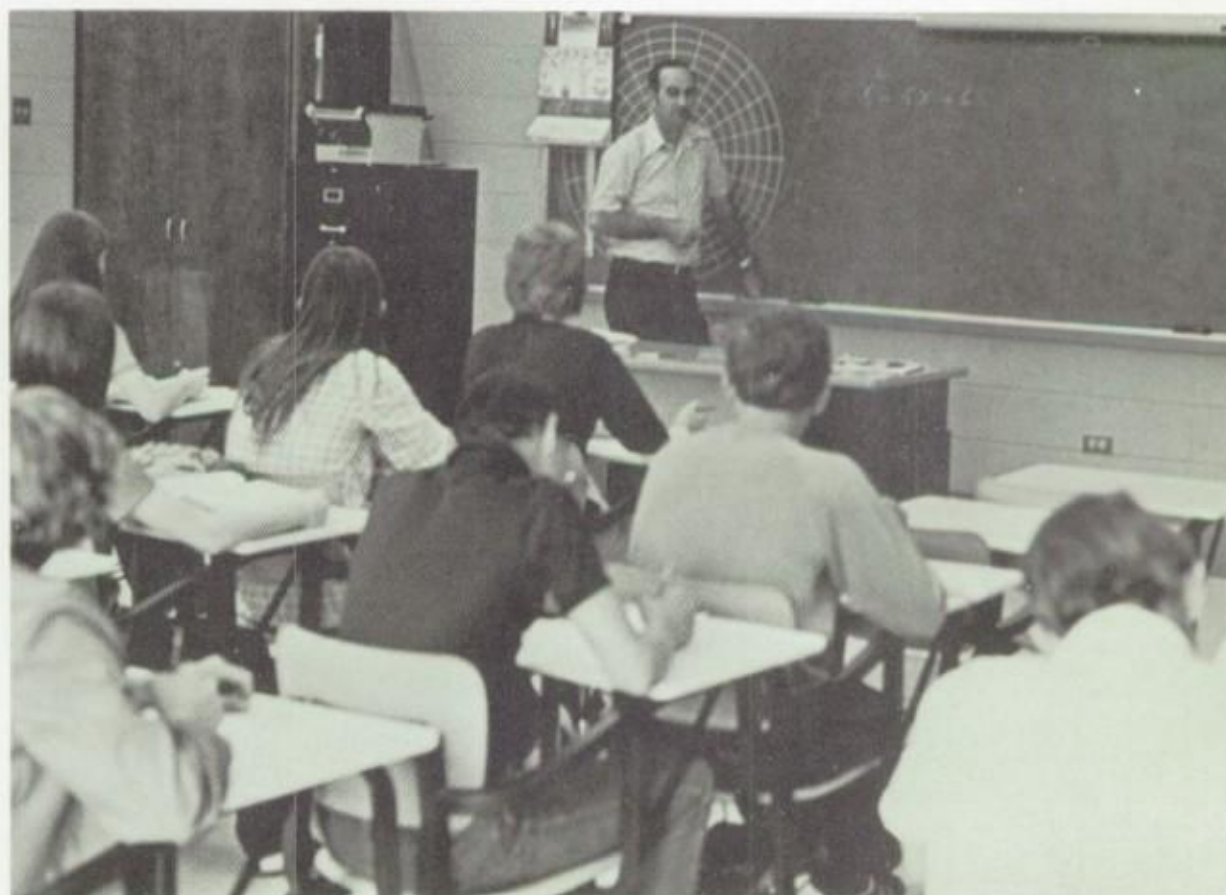

While the academic courses train the student's mind for his future in this world, physical education helps to give the student a sound body and mind. Since one's good health is all-important, physical education is a required class for every middle school and high school student.

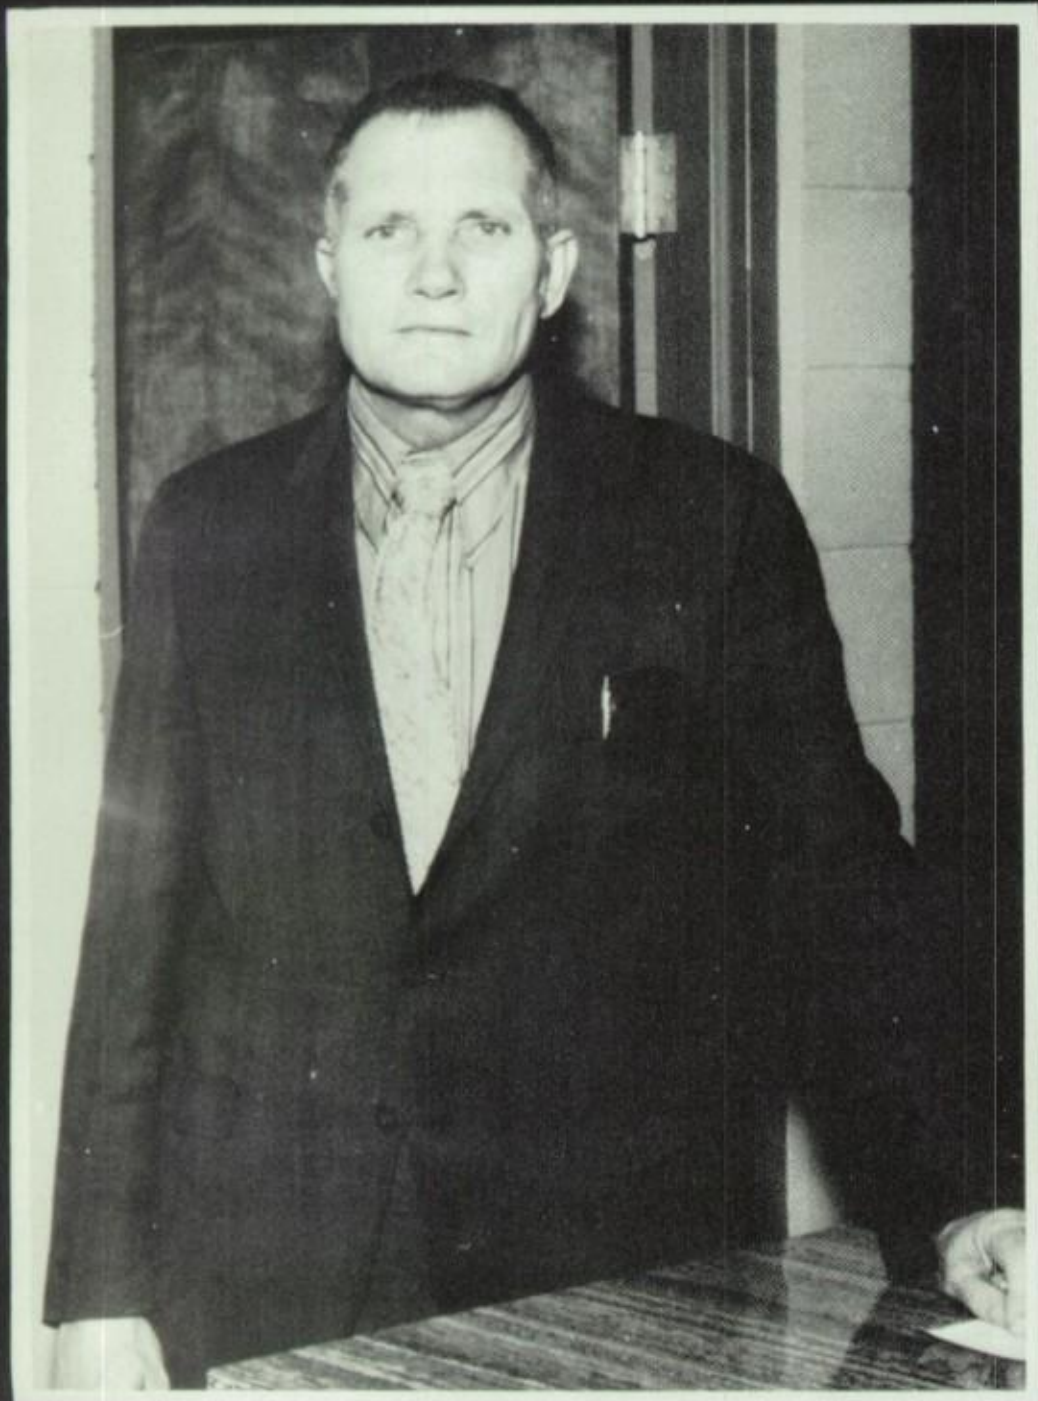

Mathematics

In this complicated world of numbers, a sound knowledge of mathematics is important in every phase of one's life. Through the courses of general math, Algebra I and II, geometry, and trigonometry, HHS students are provided with a good background in this field.

The Bridge Builder

An old man traveling a lone highway,
Came at the evening cold and gray,
To a chasm vast and deep and wide,
Through which was flowing a sullen tide.
The old man crossed in the twilight dim,
The sullen stream held no fears for him;
But he turned when safe on the other side,
And built a bridge to span the tide.

"Old man," cried a fellow pilgrim near,
"You're wasting your time in building here.
Your journey will end with the closing day;
You never again will pass this way.
You have crossed the chasm deep and wide,
Why build you this bridge at even-tide?"

The builder lifted his old gray head;
"Good friend, in the path I have come," he said.
"There followeth after me today,
A youth whose feet must pass this way.
This stream which has been as naught to me,
To that fair-haired youth may pitfall be;
He, too, must cross in the twilight dim -
Good friend, I am building this bridge for him.

Burns (41) starts to cut through hole made by Wade (61), Tyler (67), and others.

Senior "B" Football Team

Truxler shows perfect form in going after the referee.

Co-captains Truxler (30) and Graddy (75) engage in traditional pre-game coin toss.

All-District Watson displays one of his many abilities.

Mustangs return to the battle scene through a victory line formed by their supporters.

A host of Mustangs including Manning (87) and Taylor (40) try to block this PAT attempt.

Coach Watson nervously paces the sidelines during the heat of a game.

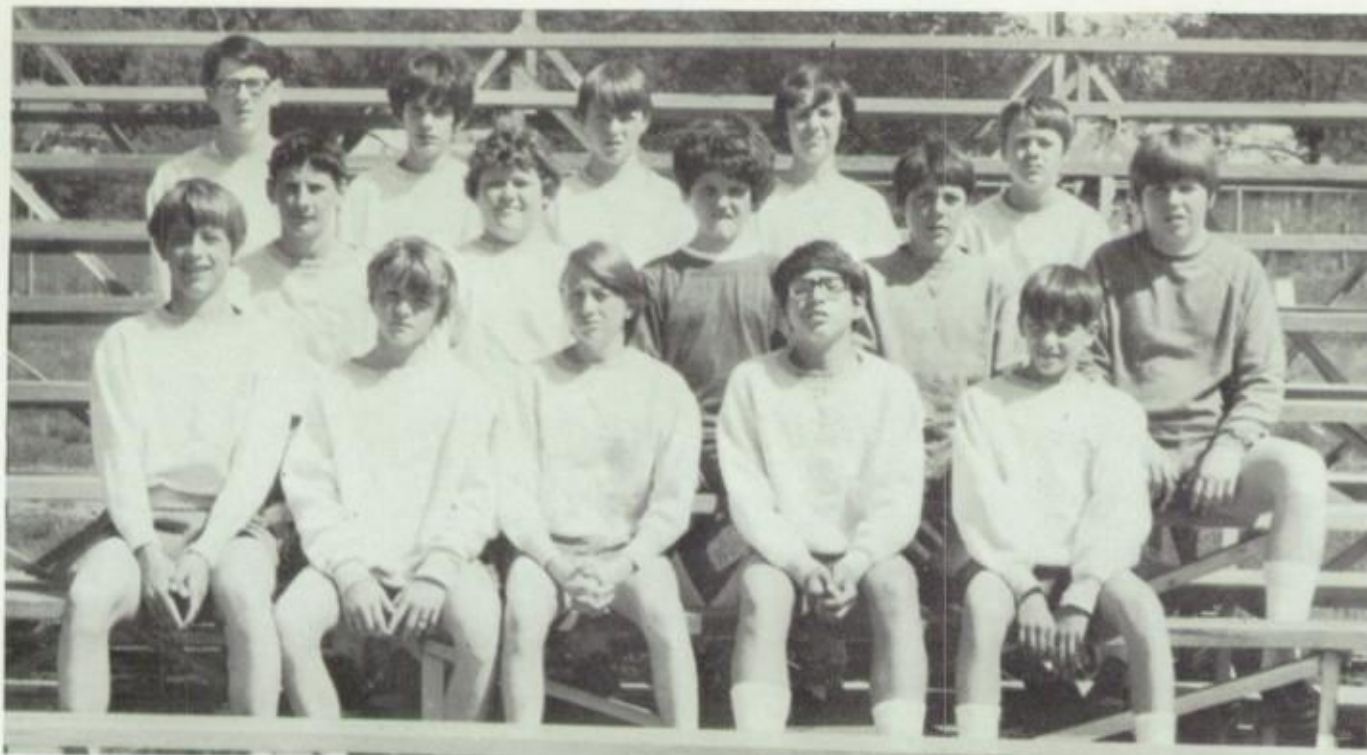

A Walnut Ridge runner warily eyes Pace (33) coming in to make the tackle.

Watson (19) fades to pass behind a protective wall that includes Bonner (72) and Parker (40).

I wish Coach Watson would get back, this is hard work!
